Mike Willis,

My department and I would like to share our appreciation for your kind donation of tactical first aid kits. Our department is located in a small suburb of St. Louis and all too often has to respond to shootings having little to no medical equipment to protect ourselves and our community. These kits will be issued to each officer and could possibly be the difference of life or death for not only our officers but the victims affected by the violence in our community.

Respectfully,

Detective Colby Thomas DSN 264
